One to Watch Alumni Award

Nicole Koroway

Comprehensive Health Care Aide, Class of 2011

Practical Nursing, Class of 2015

After graduating from the Practical Nursing program at Assiniboine in 2015, Nicole began working on the medical floor at the Dauphin Regional Health Centre in a full-time permanent position. During this time, she worked many shifts on the Palliative Care unit – which she felt was her calling, and continued to extend her education through several additional courses, which soon landed her a role within the Medical Assistance in Dying (MAID) program in Dauphin.

In 2017-18, the Dauphin hospital expanded the function of Licensed Practical Nurses (LPNs) and Nicole applied for a position in the operating room. She currently works as an Operating Room and Post Anesthesia Care Unit nurse at the hospital.

Nicole plans to further her education again to earn her Bachelors of Nursing degree.
