Looking for a great place to work?

A place where you can use your passion for Enviro Sciences in a new way?

Then think about us for this outstanding opportunity.

If you are a looking to break out of the status quo by joining an organization - where you will have the ability to put your stamp on things this may be the place for you !

About Us

Clean Water Pro has been growing rapidly and is looking for a SUPERSTAR FIELD TECHNICIAN to help us continue this growth. Our company specializes in remediating lakes & ponds and has been in business since 2008.

Clean Water Pro sells, installs, and maintains fine bubble aeration systems designed to pump dissolved oxygen into stagnating water. Other services include bacterial treatments, pond dyes, and vegetative management solutions (in the water and on the shore). Clean Water Pro also provides a valuable diagnostic service for assessing the precise stage of your dugout, pond or lake. Clean Water Pro takes a comprehensive approach to the physical, environmental and chemical composition of water and the surrounding area.

We are located southwest of Winnipeg in beautiful Carman Manitoba!

Job description

The position of **Field Technician** is critically important, as the successful candidate will be in direct control water assessments, equipment maintenance and installation delivered by our company. The incumbent must be 100% dedicated to providing the very best in customer care and attention to detail.

To analyze bodies of water, install systems, apply treatments and maintain systems. Candidate must be self-motivated and able to work independently and as part of a team. Candidate must be willing to learn about water. Record keeping and report writing a must. Ability and desire to work and learn about nutrients, aquatic species and analyze the surroundings.

Part of this job will be Riparian zone planting along ponds. This would involve

- Preparing the ground for seeding
- Transplanting plants, plugs
- Small machinery operation

You will report to the President. You will work as team and work independently at times. And you will, for sure, be expected to bring new ideas to the table.

Responsibilities

50% - Assessing bodies of water- samples, examining aquatic weeds and ecosystem

20% - Installing aeration and other technologies

20% - Maintaining systems and applying environmentally friendly treatments

10% - Report writing and record keeping. General duties – organizing stock and tools

Qualifications

- Naturally friendly communicator with the ability to speak with stakeholders
- An ability to produce meaningful concise reports and record accurate data
- Along with a strong working knowledge of the customer care, you must have a personal desire to set and achieve personal and team goals.
- Enthusiasm and the ability to dedicate a high level of energy to job-related duties are required.

- Demonstrated proficiency in written/oral communication (writing, editing, formatting) in the English language
- Must have high degree of computer literacy in a Windows environment (Word, Excel, QuickBooks and Power Point)
- Ability to establish priorities, work independently, and proceed with objectives without supervision
- Must be alert and resourceful and be able to interact with a cross section of individuals
- Must be able to demonstrate patience and perseverance, and embrace change when it occurs

Credentials and Experience

- A degree/diploma (or working towards one) in Enviro sciences or Engineering
- Experience in a field role would be an asset
- Understanding of water testing equipment an asset
- Boat operators license an asset
- Farm background an asset
- Algae identification an asset

Type of Person Who Will Succeed in this Role

- Stay focused on details to manage time sensitive projects in a distracting environment;
- Strong organizational & multi-tasking skills
- Neatness in appearance
- A belief in the importance of punctuality
- Be a team player and able to project a strong professional demeanor
- Directive personality – solves problems in decisive manner
- Outgoing – interacts in a socially engaging manner
- Sense of urgency – with a high tolerance for ambiguity
- Detail oriented / numbers focused – but with creativity to get the job done

What we offer:

- A great culture
- A supportive team that is committed to personal and professional growth
- A growing company
- A competitive compensation plan
- Regular hours of work
- Starting date: APRIL 29
