

Tool Maintenance Person – Up To 9 Month Term

LOCATION: Winnipeg, Manitoba
DEPARTMENT: Production
POSTED: January 17, 2019

New Flyer– North America’s largest transit bus, motor coach manufacturer and parts distributor is seeking a **Tool Maintenance Person** to join its growing international team.

Join us as we continue advancing innovation and sustainable transit solutions that connect people with places. With 31 locations across the U.S. and Canada, and over 85 years of experience manufacturing buses, New Flyer is building on a solid foundation to drive North America forward with progressive transit technology that serves communities and makes cities smarter.

Don’t settle for a job when you can build an impactful and exciting career.

Position Summary:

As a member of the Tool & Die team, this position will be responsible to interpret blue prints, charts/tables and study sample parts to determine required machining operations.

What You Will Do:

- Work from blue prints, charts, tables, and sample parts to determine machining operations.
- Perform precision grinding, turning, milling, tapping, and drilling as required within tight tolerances.
- Adhere to safety procedures and practices.

Skills and Experience:

- Be able to read and analyze blue prints to determine machining operation requirements.
- Have previous weld experience or ability to learn how to weld.
- Ability to work independently or within a team.
- Able to perform required duties with minimal supervision.
- Adherence to all established safety practices and procedures.
