

2026 SELF-DIRECTED PESTICIDE TUTORIAL

Build Your Skills in Pesticide Application

If you are new to pesticide application or preparing for re-certification, this self-directed course provides the foundational knowledge you need. The course is organized into online modules that cover all the core pesticide concepts.

Over seven days you can work through the material at your own pace, with interactive activities and practice questions included to reinforce learning. The course is designed to strengthen both core and application-specific skills. It is a valuable tool to assist in preparing for certification exams; however, it should be used alongside independent study.

Tutorial

- **Pesticide Core (PEST-0144)** - This tutorial is focused on the concepts in the Pesticide Core modules and will aid students in preparing to write the Pesticide Core certification exam.

All students will require an internet enabled device and access to the internet.

Registration Fee:

The registration fee for each tutorial is \$95 plus GST.
