

Adherence of Members of the College Community to Public Health Orders

Policy Statement

It is the expectation of Assiniboine Community College that all members of the college community will comply with public health orders. This includes Assiniboine students, staff, affiliated organizations and contractors (e.g. ASD), and visitors on campus.

Protection of Safety of the College Community

When a member of the college community is knowingly in violation of a public health order, the college will inform that person of their obligation to comply. The college will also report to the appropriate public health authorities any instances where members of college community are in violation of public health orders that could prevent risk for the college community.

Reporting to Public Health Authorities

The President will designate individuals to liaise with appropriate public health authorities about members of the college community who are in violation of the public health orders.

Frequently Asked Questions

1. What should I do if I suspect a member of the college community is in violation of a public health order?
