During the 2nd year of the NAT program, students will require access to a credit card to subscribe to Microsoft online services such as Microsoft Azure and Microsoft Intune. Free resources are available and are typically sufficient for required coursework, but sign up requires a valid credit card. Students are responsible for any overage charges. Please carefully follow directions from course instructor to reduce the chance of paying overage charges. ***Please note if a student is required to re-take certain courses, they may be required to pay overage charges.***		

**All fees are estimated and subject to change without notice.*

DUO Mobile App or YubiKey

Assiniboine College requires all students and staff to use an additional method to verify their identity when accessing any college system such as Assiniboine Connect, Moodle, Teams etc. Multifactor Authentication adds extra security to logins to protect you, your personal information and college systems from unauthorized access.

There are two options to verify identity:

1. Download the free DUO Mobile app on your own mobile device. Note: You will only do this when you first attempt to access our college system. Visit Multifactor Authentication (see link below) for more information and setup guidance.

or

2. If you do not have access or do not want to use your mobile device, you may purchase a YubiKey, costs vary by type. It is important to know the type required for your computer/laptop. For example, most computers on campus are USB-A compatible and require the YubiKey 5 NFC. If your program is a Bring Your Own Device program you will purchase the appropriate token for your own device.

• YubiKey 5 NFC (used for computers/laptops with an USB-A port) - $75.00

• YubiKey 5C NFC (used for computers/laptops with an USB-C port) - $80.00

These products are also available for purchase at the Assiniboine's Bookstore.

Visit Multifactor Authentication for more information.
