2024 PESTICIDE TUTORIALS
Build Your Skills in Pesticide Application

If you are new to pesticide application or are preparing to re-certify, you will find a pesticide tutorial right for you. These live online three-hour tutorials include a presentation by your instructor, an industry expert who will share with you the key concepts of applying pesticides for the work you do and common pests you encounter. Throughout the tutorial, you will have the opportunity to ask questions of your instructor and learn more about the certification exam process. Tutorials are designed to build your skills in specific areas of application as well as core skills. They will assist you in preparing for certification exams, but do not replace studying.

Which Tutorial Should you Take?

The work you do and the certification you require will help you decide which of the tutorials you should take. Tutorials available include:

- **Agriculture (PEST-0047)** - This tutorial is focused on the concepts in the Pesticide Agriculture Ground and Seed Treatment modules and will aid students in preparing to write the Agriculture Ground and/or Seed Treatment exams.
- **Landscape/Greenhouse (PEST-0048)** - This tutorial is focused on the concepts in the Pesticide Landscape and Pesticide Greenhouse modules and will aid students in preparing to write the Landscape and/or Greenhouse exam.
- **Pesticide Core (PEST-0050)** - This tutorial is focused on the concepts in the Pesticide Core modules and will aid students in preparing to write the Pesticide Core certification exam.

All students will require an internet enabled device and access to the internet. A camera and microphone is preferred so you can interact with your instructor.

Registration Fee:

The registration fee for each tutorial is $125 including GST.

Tutorial Dates:

The table below lists all tutorial date and times.

Tutorial	Date	Time
Agriculture (PEST-0047)	January 15, 2024	9 am – 12 pm
