NETWORK CABLE INSTALLATION

Document of Achievement

Learn to install the cables that connect our homes, workplaces and big business. These systems are the transmission highway that supports every voice, video and data communication we make on a daily basis.

1 Build your networks
Train according to the latest, most relevant industry technology and standards. Within a balanced and structured course schedule, learn small business tactics and gain knowledge in government restrictions, legal requirements, marketing, finances and record-keeping.

2 Don your hard hat
Be prepared for all work environments as you learn about safe work procedures and proper tool safety. Develop your understanding of cable pulls, cable colour codes, termination methods, cable construction and installing jacks and wall plates. Learn how to comply to industry standards and best practices, ensuring the right approach the first time around.

3 Practice what you learn
Learn at our state-of-the-art Len Evans Centre for Trades & Technology, a 130,000-square-foot facility featuring innovative machine shops and modern classrooms in a historically-rich setting. Guided by our experienced instructors, put into practice theories and processes learned in the classroom to ensure you are ready to succeed in the network cable installation field.

4 Join the hub
Open a range of doors for yourself when you become part of the ever-growing industry of high-speed cabling and network upgrades. Find employment in network cable installation or branch out and start your own business and contract services to larger installation companies.

Course load: Part-time

Program delivery options: North Hill campus
