

WOODWORKING

Document of Achievement

If you've always wanted to get into the hobby world of woodworking but weren't sure where to start, this program is for you. Take your woodworking hobby to the next level by having the skills to create pieces of work for family and friends or even start your own business.

1 Set the foundation

This program provides you with the opportunity to learn woodworking skills from basic to advanced. The classes are designed to benefit the beginner, as well as those with previous experience. With each course, you will build on the knowledge you gained from the previous; this will culminate in designing and building your own project.

3 Learn from the best

Get to know your instructors throughout the different courses. Learn from the vast array of our instructors' experiences and rely on their expertise as you grow more confident developing your skillset.

2 Enter the workshop

Get straight to work in the shop with tools and materials while also studying the intricate skills of woodworking from machinery use to design layout. Become competent in the basics of hand and power tools, project layouts, jigs, and larger, more powerful machinery.

4 Handy safety steps

Woodworking tools can be dangerous if not used properly. Throughout the program, practice the correct and safe way to operate woodworking equipment, learn workshop safety protocols, and understand best practices to ensure you have an enjoyable and safe experience in workshop environments.
