

## Network Administration Technology Tool List 2020-21

The following tools are required for various courses throughout the program:

### Screw Drivers

- #0 Phillips
- #1 Phillips
- #2 Phillips
- Jewellers (1 set of 5)

Example:

### Pliers

- Side Cutters 4"
- Needle Nose 4"
- Wire Strippers (adjustable)

### Safety Glasses

- Students are required to purchase 1 pair of CSA approved protective safety glasses that will be used for lab work. These glasses should wrap around and provide side protection. (\$10-\$20)
- Students requiring corrective lenses may choose between larger safety goggles that cover their glasses (recommended) or the purchasing of prescription safety glasses.

\*\*Students enrolled in Year 2 of the NAT program will require a credit card to subscribe to Microsoft online services such as Microsoft Azure and Microsoft Intune. Free resources are available and will be used but students are responsible for any overage charges on the trial agreements for Microsoft online services and for providing a valid credit card to sign up for services. It is estimated that overage charges will not exceed \$100. Students must sign up for these services and have access in order to be successful in Year 2 of the program.

### Miscellaneous

- Screw Container (small plastic)
- 8 GB USB stick or larger required. 32GB USB 3.0 stick recommended
- Anti-Static Wrist Strap (available from an electronics store, e.g. Best Buy, The Source, Staples or online) **\*\*Required for entry into Computer Servicing 1 & 2**

Example:

If you have to purchase new tools, it is recommended that you purchase good quality tools with a lifetime warranty. The tools should be available at most retail hardware outlets.

**Total Cost of Tools - \$125 (approx.)**
