

MEDIA AND COMMUNICATIONS

2-YEAR
DIPLOMA

Make the stories you want to tell *happen*. Create powerful messages through audio or visual productions and gain the technical skills to bring those narratives to life.

Why should you choose a career in Media and Communications?

1 Indulge your creativity

Are you always asking questions? Do you enjoy telling stories in unique and creative ways? The Media and Communications two-year diploma program gives you the opportunity to excel in a hands-on career in television, radio or film. Learn all facets of the industry and then specialize in what you like best. Our experienced instructors push you to develop your narrative craft, tackle news reporting, and master technical skills.

2 Be a go-to in the workplace

Learn how to communicate compelling stories—multi-platform journalism can be found here. Write a story from start to finish, but have the ability to put it into a range of audio and visual formats, including podcasts, documentaries and broadcasts. Develop your passion for television or radio, and hone your craft across a wide range of audiovisual environments. Learn to write, announce, shoot, record, edit and produce. In your final term, focus on an area most interesting to you and develop your niche interest.

3 Let your personality shine

There's no sitting in a classroom day after day here. Be a college radio personality, produce documentary films, do live television broadcasts on our Westman Newline television show, and push yourself to find creative ways to showcase your ideas. Every assignment connects you to our broader communities and gives you hands-on opportunities to try new things and gain new skills. During your Capstone project, choose an area of interest and be mentored by a field specialist.

4 Get inside the industry

This flexible and comprehensive program will prepare you for entry-level broadcast roles within a team. Graduates have gone on to work with major news and entertainment networks, production houses and digital agencies. An eight-week work practicum at the end of your second year of study helps build on your strengths and gives you the opportunity to make industry connections before graduation. Past practicum partners include Bell Media, CBC, CTV, Global Television and Westman Communications Group.

FULL-TIME, ON-CAMPUS TIMELINE:

Program delivery options:

Victoria Avenue East Campus

CAREER OPPORTUNITIES

Graduates of Media and Communications find exciting and challenging entry level opportunities as camera operators, news and sports journalists, cinematographers, editors, VJs, radio DJs, film industry technicians, audio producers, live production operators, live sound engineers and content creators.

Prospective employers include: media production houses, news outlets, film companies, radio stations, in-house production teams of large companies, audio-visual companies and live event venues. Entrepreneurs may find additional options with freelance contracts.

ADMISSION REQUIREMENTS

- » A complete Manitoba Grade 12 or equivalent
- » English 40G/40S or equivalent with a minimum mark of 65%

English is the language of instruction at Assiniboine. All applicants educated outside of Canada or in a country not on the test exempt list are expected to meet the English language proficiency requirement. See assiniboine.net/elp for more information.

TECHNOLOGY REQUIREMENTS

Programs at Assiniboine have certain technology requirements. Students require access to computer devices at home and may be required to bring these on campus when instructed. Refer to assiniboine.net/tech for more detailed information about the requirements for this program.

UNIQUE LEARNING EXPERIENCES

- » Emphasis on hands-on, practical work in labs and Assiniboine's own radio station, as well as live TV and radio production
- » Community involvement at local events and interaction with industry professionals
- » Advanced field production resources - cameras, lighting, sliders, gimbals, pocket jibs, etc

GRADUATION REQUIREMENTS

To graduate with a Media and Communications diploma, students must successfully complete 120 academic credits and 1 practical credit.

The minimum passing grade for each course is indicated on the course outline.
