

AGRICULTURE

**8-MONTH
ADVANCED
DIPLOMA**

Combining the business and technology of agriculture, this post-credential diploma prepares you for a career in one of Canada's largest and most advanced industries.

Why should you choose an Agriculture advanced diploma?

1 Up your game

Build on your existing business education and make yourself more desirable to employers. This program is specially designed for those with business-related degrees or diplomas, or those with previous education in agriculture outside of Canada, who are looking to develop specialized skills to prepare them for a career in this fast-changing industry.

2 Grow your skill set

Dive deep into fundamental agriculture topics, including crop production and protection, livestock production and environmental considerations directly related to agriculture. Develop additional knowledge in communications, customer service, sales and marketing, and management. Round out your analytical and critical thinking skills by learning the technological applications of GIS (geographical information systems) and GPS (global positioning systems).

3 Take it outside

Experience the best of both worlds: indoor classrooms, plant and soil labs, and outdoor field labs. Off-campus industry tours throughout the year allow you to see careers in action, network with others in your field, and help you to see the complex and fast-paced world of agriculture.

4 Oh, the places you will go

Whether you see yourself in finance, sales and marketing, consulting, research or management, you'll have the tools to get started. Potential employers include banks and credit unions, grain companies, equipment dealers and government agencies. Some graduates may even choose to become entrepreneurs or self-employed consultants.

CAMPUS/DELIVERY OPTIONS

Victoria Avenue East Campus

WORK PLACEMENT(S)

N/A

CAREER OPPORTUNITIES

Potential employers include grain companies, seed and crop inputs suppliers, banks and credit unions, livestock supply outlets, agricultural equipment dealers, government agencies, agronomists/consultants and co-operatives. Career opportunities include agriculture, agronomy, sales and service, finance, livestock, marketing, management, research, administration and precision agriculture.

ADMISSION REQUIREMENTS

» Two-year diploma or university degree

English is the language of instruction at Assiniboine. All applicants educated outside of Canada or in a country not on the test exempt list are expected to meet the English language proficiency requirement. See assiniboine.net/elp for more information.

TECHNOLOGY REQUIREMENTS

Programs at Assiniboine have certain technology requirements. Students require access to computer devices at home and may be required to bring these on campus when instructed. Refer to assiniboine.net/tech for more detailed information about the requirements for this program.

UNIQUE LEARNING EXPERIENCES

- » Classroom theory integrated with hands-on lab and field learning
- » Well-equipped, modern soils and plant labs complete with growth chambers
- » Industry tours and guest speakers presented throughout the year
- » Concentrated, advanced courses get you career-ready in less than a year

GRADUATION REQUIREMENTS

To graduate with an advanced diploma in Agriculture, students must successfully complete 78 academic credits.

The minimum passing grade for each course is indicated on the course outline.

CONNECTIONS

Graduates may be eligible for membership with the Manitoba Institute of Agrologists as technical agrologists.

Assiniboine has a number of agreements with other colleges, universities and professional organizations, making it possible for students to apply credit taken at Assiniboine to programs at other institutions. For up-to-date information on agreements, visit assiniboine.net/articulation or the program page.
