The Prairie Innovation Centre is excited to be recruiting for a new Instructor of Mechatronics Technology to join their team.

Be Passionate and Taking Initiative with these Responsibilities:

- Instruct students in a classroom or simulated field training situations and provide academic assistance during consultation hours.
- Modify and/or develop course objectives, course outlines, curricula and evaluation procedures and instruments.
- Prepare and maintain all course-related records including evaluation, attendance records, and submit information as required.
- Share passion and knowledge about automation, controls, mechanics, and electronics to students in the program.
- Demonstrate enthusiasm and professionalism that can be applied to classroom management, student evaluation, academic advising and related administrative duties.
- Identify, prepare, and organize course materials and learning resources for course delivery.
- Maintain classroom, and, if necessary, recommend action to supervisor regarding student behaviour, including formal student disciplinary action.
- Facilitate and maintain a creative and positive learning environment which provides the opportunity for meaningful learning.
- Assist in developing timetables, program budgets, and operational plans.
- Participate in projects that support college activities and environment.
- Attend professional development activities as determined by the divisional human resource plan.

Being able to deliver results by having:

- We are looking for someone who loves to communicate, wants to share their knowledge, and is committed to creating exceptional learning experiences.
- Excellent communication and organizational skills
- Relevant industry experience in the automation, robotics, mechanics, and controls.
- Several years of broad industry experience, Supervisory experience is considered an asset.
- Solid understanding or an ability to learn about Indigenization and decolonization of curriculum, classroom instruction, assessment, student advising and group facilitation.
- Ability to work effectively in a team environment.
- Well-developed technical skills, particularly the ability to use computer programs such as Microsoft Office.

This competition will remain open until the positions are filled.
