

FARM TO BUN

A MATCHING ADVENTURE

Learn how the ingredients in a hamburger are grown, raised, or processed by colouring them in and matching each ingredient to its origin!

THE IMPORTANCE OF AGRICULTURE IN MANITOBA

Did you know that agriculture is one of the most important industries in Manitoba? Farmers in our province grow the food we eat every day and help feed people all around the world!

Here are some amazing facts about agriculture in Manitoba:

Grains and Oilseeds: Manitoba grows crops like wheat, canola, and barley, which are used to make foods like bread, cereal, and cooking oil.

Vegetables and Fruits: Farms in Manitoba grow fresh produce like potatoes, carrots, and strawberries, helping us enjoy healthy snacks.

Livestock: Farmers in Manitoba raise animals like cows, pigs, and chickens, providing meat, milk, and eggs for our meals.

Jobs and Economy: Agriculture provides thousands of jobs, from farmers to truck drivers to scientists, and it plays a big role in Manitoba's economy.

The Russ Edwards School of Agriculture & Environment at Assiniboine College offers a variety of programs designed to equip students with the skills needed in the agriculture and environmental sectors.

Certificate and Diploma Programs:

- Agribusiness
- Civil Technician
- Food Processing (Animal Proteins)
- Land and Water Management
- Mechatronics (Robotics and Automation)
- Horticulture Production
- Culinary Arts
- Swine Production

Advanced Diplomas:

- Agriculture
- Geographic Information Systems (GIS)
- Sustainable Food Systems
- Digital Agriculture Technology
