SUSTAINABLE FOOD SYSTEMS

9-Month Advanced Diploma

Innovate new ways to grow, harvest and manage our food supply. Work closely with our instructors to help research different greenhouse models and find out how to improve food security in communities.

PROGRAM LEARNING OUTCOMES

- ▶ Analyze the social, economic and environmental factors that contribute to food insecurity, and propose solutions that promote sustainable and equitable access to healthy food.
- ▶ Apply horticultural practices and technologies to increase yields and improve the efficiency of food production.
- ▶ Evaluate the nutritional value and quality of horticultural products, and develop strategies to optimize their production and distribution to meet the needs of diverse communities.
- ▶ Assess the risks and benefits of different horticultural production systems, including conventional, organic and regenerative horticulture, and develop strategies to mitigate negative impacts and promote sustainability.
- ▶ Design and implement food security programs and policies, in collaboration with community stakeholders, that address the root causes of food insecurity and promote long-term food security.

For a full list of program learning outcomes, visit assiniboine.net/sfs

You might be a good fit for this program if you would enjoy:

- ▶ Learning more about sustainable agriculture practices and how to grow and market crops in a sustainable and environmentally-friendly way.
- ▶ Harnessing your passion about food justice, food access, and food sovereignty, and developing the knowledge and skills to effect positive change in communities.
- ▶ Starting or expanding a sustainable food-related business.
- ▶ Finding out more in the intersection of food systems and health outcomes, and developing the knowledge and skills to promote healthy and sustainable food access in communities.
- ▶ A valid driver's license and access to a vehicle is strongly recommended given the potential need to travel for practicum placement.

North Hill campus

Available Intakes
September | January

Industry Work Experience
3 weeks

EXPECTATIONS

Program & Industry

- ▶ Have physical strength and stamina, as well as the mobility and motor skills, to undertake the required tasks.
- ▶ Work in outdoor settings in varied terrain.
- ▶ A valid driver's license and access to a vehicle is strongly recommended given the potential need to travel for practicum placement.

CAREER OPPORTUNITIES

Graduates can access exciting work opportunities in food security or innovation in food production at the local, national or international level. Potential employers include the private sector, government departments, First Nations or non-governmental organizations.

ADMISSION REQUIREMENTS

- ▶ A two-year diploma or university degree

NEXT STEPS

Confidence in the career path you choose to embark on is key and selecting the right program for you is the first step. At Assiniboine, we offer an opportunity to explore and experience a program before applying. Choose to:

SPEND A DAY WITH US

Our Spend a Day program runs from November to March for most programs. When you spend a day at Assiniboine, we partner you with a current student in the program of your choice so you have the opportunity to:

- ▶ Participate in classroom activities
- ▶ Experience college life
- ▶ Explore all of our helpful services for students
- ▶ Meet current college students and instructors
- ▶ Enjoy a free lunch on us!
