Ice Facility Operator

Course

Your path to certification. This online examination preparation course prepares learners for the Manitoba Ice Facility Operator (IFO) Certificate Examination.

1 PREPARE YOURSELF

The Ice Facility Operator Exam Preparation Course is a comprehensive 80-hour course designed for individuals pursuing certification to operate and maintain ice facility plants, including ice arenas, curling clubs, and other recreational venues requiring refrigeration systems.

2 STUDY YOUR OWN WAY

This flexible, asynchronous course allows learners to study at their own pace over eight weeks. There are optional weekly live online sessions with the instructor with opportunities to review key concepts, ask questions, and discuss real-world applications.

3 ACCREDITED ALIGNMENT

Aligned with the Manitoba Inspection and Technical Services Ice Facility Operator Certificate Examination Syllabus and SOPEEC examination objectives, the course covers applied mathematics, refrigeration principles, refrigeration system components, floor and electrical systems, safety, communication and administration, and refrigeration system operation and maintenance, equipping learners with the knowledge, skills, and confidence to prepare for the certification examination.

4 BUILD YOUR CAREER

Designed for current and aspiring ice facility operators, arena maintenance personnel, and refrigeration plant operators.

Upon completion, participants will be able to operate and maintain refrigeration plants used in skating facilities, sport centres, and other temperature-controlled community facilities.
