Materials Testing Lab Summer Student

BMT Materials Testing Ltd. (BMT) is an innovative and entrepreneurial organization built on the expertise of our team. We are committed to attracting and retaining the best employees to ensure we meet our clients' needs. Our employees enjoy competitive wages. BMT recognizes that the continued success of our firm is dependent upon the capabilities and self-motivation of our team, and therefore encourages and supports continuous personal and professional growth, and a healthy work/life balance.

BMT is seeking summer students for 2024 employment in Brandon, MB. As a contributing member of our team, you will enjoy a fast paced, friendly environment that is collaborative and energized. Self-motivation, teamwork, and the ability to work within time constraints are essential to this position.

The successful candidate will be a core member of our field and laboratory services team and will work closely with BMT's manager of the field and material testing laboratory unit. Individuals who are enthusiastic about taking a leadership role in their careers will be well suited to meet the expectations of this position.
