

## Call for Seasonal Staff / Summer Students for 2024

South East Research Farm is looking for summer students or seasonal staff to help us in the 2024 growing season!

SERF is a producer-driven, not-for-profit research farm located near Redvers, SK. We do regional variety trials, cutting-edge intercropping research, and a lot of cool agronomy trials. We work with over 20 different crops each year, and the results generated from our trials help the SK Ministry of Ag provide recommendations to producers. Our research also directly helps farmers make decisions regarding agricultural practices and inputs on their farms. Every year in July we host field days where farmers and industry can see research trials for themselves.

We are hiring seasonal staff for next year to help carry out research protocols in the field and indoors. Outdoor tasks will include helping with seeding, soil sampling, weeding, doing plant counts, taking data on flowering and plant heights, sample collection, and helping with harvest. Indoor jobs will include data entry in Excel, setting up germination tests, doing seed counts, and assisting in post-harvest sample processing and shipping.

Wage: \$19-21 per hour depending on experience.

Ideal candidate should

- Be able to work outdoors and should be comfortable squatting, standing, and lifting up to 40 lbs.
- Be self-motivated, capable of working independently, and pay attention to detail.
- Be willing to do some repetitive tasks.
- Have a valid driver's license.

Experience operating farm equipment is an asset but is not essential. No farming background is required, but a can-do attitude and willingness to learn is.

Preference will be given to those eligible for funding through the Canada Summer Jobs program, but international students studying in Canada are also encouraged to apply. We are an inclusive and progressive workplace. First Nations candidates are encouraged to apply.

If you are interested in applying or want to learn more, please send an email to [contact@southeastresearchfarm.org](mailto:contact@southeastresearchfarm.org) or visit our website at [www.southeastresearchfarm.org](http://www.southeastresearchfarm.org).
