## About [Dairy Farmers of Manitoba](#):

Established in 1974, Dairy Farmers of Manitoba is a not-for-profit agriculture organization. DFM is committed to producing milk according to the highest standards of quality – and is totally financed by and represents all dairy farmers in the province. The organization values respect and integrity for all of its stakeholders, being dynamic and innovative, and delivering excellence in everything they do.

## How to Apply:

Please apply online at [www.jobs.peoplefirsthr.com](http://www.jobs.peoplefirsthr.com) or by emailing your resume in confidence to Tara Gousseau at [TGousseau@peoplefirsthr.com](mailto:TGousseau@peoplefirsthr.com). For further information about this career opportunity, please feel free to contact Tara Gousseau 204-940-3928.

*We thank all applicants for their interest; however, only those selected will be contacted for an interview.*

Dairy Farmers of Manitoba (DFM) is looking for a Farmer Support/Transportation Coordinator to join its team. With an excellent employee retention rate, DFM has a strong reputation within the agriculture and dairy industry. As an employer, DFM believes in the overall health and wellness of its employees. It offers professional and personal development with the ability to work autonomously and have a direct impact on the dairy industry as a whole.

Under the direction of the Industry Services Director, the Farmer Support/Transportation Coordinator will provide daily technical support and direction to department staff, dairy farmers, and transporters. This person responds to inquiries on technical issues and policies from dairy farmers and industry stakeholders to strengthen industry-wide understanding of DFM policies and regulations.

## As the Farmer Support/Transportation Coordinator you will:

- Provide technical support regarding DFM's custom software.
- Develop and maintain standard operating procedures for processes and policies.
- Provide support to dairy farmers.
- Support a cost effective and efficient transportation network.

## You and Your Experience:

- You have post-secondary education in a related field (e.g.: agriculture, commerce).
- You have excellent communication skills (verbal and written).
- You have excellent people skills.
- You have excellent organizational skills and the demonstrated ability to manage multiple projects, and prioritize and meet deadlines.
- You have the demonstrated ability to work independently or as part of a team
- You show attention to detail and accuracy in work.
- You have strong analytical skills, with the ability to work with numerical data, statistics, and financials.
