

**At BASF**, we create chemistry through the power of connected minds. By balancing economic success with environmental protection and social responsibility, we are building a more sustainable future through chemistry. As the world's leading chemical company, we help our customers in nearly every industry meet the current and future needs of society through science and innovation. We provide a challenging and rewarding work environment and are always working to form the best team—especially from within, through an emphasis on lifelong learning and development.
