

## NETWORK SERVICES FIELD TECHNICIAN (BRANDON, MB)

**WESTMAN COMMUNICATIONS GROUP** (Westman) is seeking applications from energetic, highly motivated individuals to become part of our growing team!

Westman is an industry-leading communications provider based in Brandon MB, offering residential and commercial High-Speed Internet, Digital TV, and Phone services in communities across Manitoba. Established in 1977, as a locally owned and operated cooperative, Westman is dedicated to delivering competitive and innovative services, providing an exceptional member experience, and supporting the communities we serve.

### What we have to offer:

- Competitive compensation package.
- Various Learning and Development initiatives, and opportunities to grow within our team!
- Opportunity to participate in company events and activities and enjoy our company perks!

### What you'll do:

- Install and replace pre-configured network-related equipment at various remote locations.
- Connect and maintain patch cables (cat5e,6,7 and fiber optic) following WCG and industry standards.
- Conduct regular inspections and maintenance of network-related equipment and powering systems to identify emerging issues and guarantee optimal performance.
- Troubleshoot and diagnose faulty equipment, coordinating with relevant teams to resolve issues.
- Execute preventive maintenance tasks on network and facility systems to prolong their lifespan and ensure continuous operational efficiency.
- Maintain, service, and test AC and DC Uninterruptible Power Supply (UPS) systems to ensure they provide reliable power continuity.
- Respond promptly to UPS alarms and alarms from associated systems.
- Maintain accurate records and create reports to ensure thorough documentation and provide insights.
- Follow industry standards and best practices, maintaining high-quality network performance and safety.

### What you'll bring to the team:

- Post-secondary education from a two-year diploma or degree in computer, network, or electronic technology. Technical certifications in electrical systems or related fields are preferred and considered an asset.
- Proven experience in installing, maintaining, and testing network-related equipment.
- Demonstrated knowledge with UPS systems, powering systems, and standby generators.
- Familiarity with all aspects of wireless internet equipment is considered an asset.
- Proficient in the use of productivity tools (e.g. Excel, Word).
- Must be available to work evenings, night shifts, and extended travel/stays away from Brandon as required.
- Must be available for emergencies as required.
- Must hold and maintain a valid driver's license.
- Must be able to carry up to 75lbs.

\* A combination of education and experience may be considered.

**DEADLINE FOR APPLICATIONS:** This position is open until filled.

*As an equal-opportunity employer, we are committed to an inclusive and barrier free environment at Westman Communications Group and encourage applications from all qualified individuals. If you require a reasonable accommodation at any point during recruitment process or would like to request this posting in an alternate format, please indicate by emailing [hr@westmancom.com](mailto:hr@westmancom.com) of the accommodation requirements. While we thank each applicant for their interest, only selected candidates will be contacted.*
