

## SECURITY ANALYST (BRANDON, MB)

**WESTMAN COMMUNICATIONS GROUP** (Westman) is seeking applications from energetic, highly motivated individuals to become part of our growing team!

Westman is an industry-leading communications provider based in Brandon MB, offering residential and commercial High-Speed Internet, Digital TV, and Phone services in communities across Manitoba. Established in 1977, as a locally owned and operated cooperative, Westman is dedicated to delivering competitive and innovative services, providing an exceptional member experience, and supporting the communities we serve.

### What we have to offer:

- Competitive compensation package.
- Comprehensive group benefits plan (extended health; life; dental; vision; GRRSP; and health and wellness).
- Various Learning and Development initiatives, and opportunities to grow within our team!
- Opportunity to participate in company events and activities and enjoy our company perks!

### What you'll do:

- Create and maintain WCG's security architecture design.
- Research, analyze, recommend, and implement different systems required to operate and manage the security infrastructure.
- Develop, maintain, and implement business continuity and disaster recovering strategies for the IT infrastructure.
- Participate in periodic threat/risk assessments, research security enhancements, and make recommendations.
- Help create technical solutions to business problems or challenges related to the security infrastructure.
- Provide direction and oversight to internal contacts relating to security, particularly during implementations and changes.
- Maintain detailed documentation for overall security infrastructure.

### What you'll bring to the team:

- Bachelor's degree or college diploma in Information Technology, Computer Science, or a related field.
- Possession of two or more approved security certificates and/or completion of other approved security related training may substitute for some or all the required education.
- Minimum 5 years experience in IT with extensive experience and knowledge in information systems security.
- Working knowledge of risk assessment methodologies and IT control Frameworks such as CIS, CSA, NIST, ISO, PCI, COBIT.
- Experience working with/implementing technologies such as Firewalls/NGFW/WAF, PAM, Microsoft 365, Microsoft Active Directory, Microsoft Azure, Email security, and vulnerability scanners.
- Excellent knowledge and experience of scripting languages (Power Shell, Bash, PHP, Perl, Python etc.).
- Excellent networking knowledge (TCP/IP networking and core technologies, such as VPN, routing, HTTP, DNS, etc.).
- Knowledge of Linux and general Linux support issues.
- Proficiency in supporting information security issues and controls.
- Ability to lift and carry up to 50 lbs.
- Much hold and maintain a valid driver's license and be bondable.

**DEADLINE FOR APPLICATIONS:** This position is open until filled.

*As an equal-opportunity employer, we are committed to an inclusive and barrier free environment at Westman Communications Group and encourage applications from all qualified individuals. If you require a reasonable accommodation at any point during recruitment process or would like to request this posting in an alternate format, please indicate by emailing [hr@westmancom.com](mailto:hr@westmancom.com) of the accommodation requirements. While we thank each applicant for their interest, only selected candidates will be contacted.*
