Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

We are seeking a Diesel Trades Trainee to be part of our Transmission Stations Operations & Maintenance team in Thompson, Manitoba. As a Diesel Trades Trainee, you are required to successfully complete a training program that may include classroom and on-the-job training.

All apprentices are required to complete the Manitoba Provincial Heavy Duty Equipment Technician or Truck and Transport Mechanic Apprenticeship Program and attain the Interprovincial Certificate as a Heavy Duty Equipment Technician or a Truck and Transport Mechanic.

This is a permanent position with full time hours. You will be responsible for the installation, commissioning, servicing and the repair of diesel generators and associated equipment used to generate electrical energy for prime or standby power for critical services located throughout the Province of Manitoba.

Responsibilities:

- Plan and organize the installation, inspection, overhaul, commissioning and maintenance of Diesel Generators and associated equipment and the maintenance of standby generators for emergency power and microwave standby diesel sets.
- Operate Diesel Generating Stations under emergency conditions.
- Comply fully with all safety procedures and regulations as well as Corporate, Legislative and regulatory environmental requirements.
- Handling of fuel oil, lube oil and other supplies for Diesel Generating Stations, including spill response and clean up.
- Fabricate and shape parts, etc., using special precision tools. May be required to perform welding.
- Required to operate motor boats, snowmobiles, ATV's and skid steer loader at remote Diesel Stations.

Qualifications:

- Grade 12 or equivalent with a minimum of English 40 and Math 40S.
- Currently registered in the 4-year Manitoba Provincial Heavy Duty Equipment Technician or Truck and Transport Mechanic apprenticeship program.
OR
- Completion of an accredited program in Heavy Duty Equipment or Truck and Transport Mechanic through a participating training institution as identified by Apprenticeship Manitoba and eligible for registration in the 4-year Manitoba Provincial Heavy Duty Equipment Tech or Truck and Transport Mechanic Apprenticeship program.
- Must obtain and maintain a current Personnel Risk Assessment and a "Clear" security rating in accordance with Manitoba Hydro policy G45D.
- Critical Infrastructure Protection (CIP) Training is required and must be completed prior to transfer date and renewed annually.
- Required to have a mechanical aptitude to satisfy all requirements of the position.
- Capable of communicating effectively, both orally and in writing.
- Physically capable of performing all the duties of the position.

- Be willing to acquire an approved set of personal hand tools.
- Required to travel extensively within the northern areas by all modes of transportation (air, land or water).
- Possess and maintain a valid Province of Manitoba Driver's Licence with appropriate class.

NOTES:

Will be required to travel by all modes of transportation (air, land or water) and work at remote diesel sites (Brochet, Lac Brochet, Tadoule and Shamattawa) from Monday to Friday. Will also be required to work for extended periods at these locations during winter fuel haul and engine overhauls. Personnel Risk Assessment and clearance is required.
