ENGINEERING TECHNOLOGIST (Telecommunications & Control)

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

Manitoba Hydro is recruiting Technologists for a career in Telecommunications & Control.

Upon completion of a two-year training program that involves field experience and advanced theoretical and practical courses, you will install, maintain and repair advanced telecommunication and control systems. Successful applicants are required to work and may be stationed at various locations throughout the province.

Safety is our top priority and we will follow Manitoba Health's pandemic-related safety and health protocols throughout the recruitment process for this program. This will result in a longer than normal recruitment process. At this time, we expect successful candidates will start mid Spring. Anticipated start dates, and timelines for recruitment activities, may be adjusted as required given pandemic-related restrictions.

Qualifications:

- A diploma from an Electronic, Computer, or Telecommunications Engineering Technology program accredited by the Canadian Council of Technicians and Technologists (CCTT) or equivalent certification as an Engineering Technologist with the Certified Technicians and Technologists Association of Manitoba (CTTAM).
- Valid Manitoba Class 5 Driver's Licence (intermediate or full) or equivalent.
- Capable of interpreting schematics and wiring diagrams.
- High degree of mechanical ability.
- Aptitude for technical skills involving computer and electronic equipment.
- Accurate colour perception.
- Physically capable of performing all the duties of the position.
- Willing to relocate to various locations within Manitoba.

All applications must include the following information, attached to your online profile:

- Current resume and cover letter;
- Diploma and complete transcript of marks (post-secondary).

The email address you submit in your application profile will be used as the main form of correspondence throughout the recruitment process. Please monitor your email inbox on a regular basis.

The selection process will include aptitude testing and an interview. Candidates selected for an interview must provide a current driver's abstract at the time of the interview.

Great Benefits

- Competitive salary and benefits package
- Defined-benefit pension plan
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community
