

Occupational Health Nurse

Are you looking for a great job opportunity in a rural community? Do you want to work for an innovative company that will invest in your potential? Welcome to HyLife; Canada's leading pork producer. HyLife creates limitless opportunities for passionate individuals in a global business setting. Our growing company is searching for top talent to join our team in the role of **Occupational Health Nurse**, reporting to the Director of Human Resources, located in the community of **Neepawa, MB**.

Your days will include:

- Developing and implementing health and safety programs
- Developing disease prevention programs
- Observing and assessing the work environment for potential dangers and hazards
- Treating injuries and illnesses for employees, including follow-ups and referrals
- Support emergency and disaster preparedness programs and planning
- Counseling employees on physical and mental health issues and guiding them toward community resources and/or employee assistance programs
- Responsible for coordinating cost effective occupational health services and programs; continuous monitoring to ensure the best quality, most cost-effective vendor products and services
- Bring awareness of current legislative activities that may impact nursing practices, workers, workplaces and the environment
- Monitoring the health status of employees
- Support the management of the COVID-19 prevention program

To succeed in this role, you must possess:

- Registered Nurse (RN) or Registered Nurse Practitioner {RN(NP)} designation with bachelor's degree
- Occupational Health Nursing diploma or willingness to achieve this designation
- Minimum 5 years of clinical practice
- Ability to coordinate employee health screening and surveillance programs and services; monitor work environments to protect the health and safety of employees
- Skills to implement occupational and environmental health and safety training and education
- Ability to identify and share resources and applications to help support relevant evidence-based practices
- Experience in a manufacturing environment preferred
- Willingness to work shift work if required

If you thrive on new experiences and want to be a part of a team with international reach, apply today at <http://hylife.com/current-opportunities/>.

Your Future starts now!
