

Career Opportunity

Navigational Aids Technician Southport, MB

BUILD YOUR CAREER AT CANADIAN BASE OPERATORS

For over 25 years, Canadian Base Operators has provided customized facilities management and logistical support services to clients in the Canadian Defence, aviation, and energy sectors. We are a performance-based contractor, committed to partnering with our clients to ensure the long-term success of their highly specialized facilities and operations.

ABOUT THIS CAREER OPPORTUNITY

Canadian Base Operators' Southport team is growing! If you are a committed and collaborative professional looking to contribute to a hard-working, innovative team, this opportunity is for you. As a proud partner with Kelowna Aerospace Defence Programs, we deliver numerous support services tailored to our client, the Royal Canadian Air Force (RCAF).

The Navigational Aids Technician is a full-time permanent role located in Southport, MB and reports to the Nav Aids Supervisor. Their primary focus is to perform maintenance activities on all navigational aids and airfield equipment. Duties and responsibilities include but are not limited to:

- Assist in the installation and corrective maintenance of electronic components, airfield equipment and systems
- Calibrate electronic equipment and instruments according to technical manuals and written instruction
- Maintain equipment manuals, regulatory documentation and test/calibration equipment
- Ensure work is performed in compliance with Workplace Safety, ICAO and Transport Canada Standards
- Prepare and submit purchase orders for replacement parts and consumable items to maintain equipment
- Perform log-keeping duties consistently to create an accurate record of equipment history
- Attend training courses as required to obtain qualification on equipment
- Complete timesheets, work orders, estimates and equipment preventative maintenance forms in an accurate and timely manner
- Comply with all related policy, procedure and regulation
- Other duties as assigned.

COMPETENCY REQUIREMENTS

- Communicates Effectively
- Customer Focus
- Problem Solving and Innovation
- Teamwork and Collaboration

EDUCATION REQUIREMENTS

High School Diploma or equivalent
Completion of electronics engineering technologists training program
