

Jonair (1988) Ltd.

Position: New Grad Agronomist

Portage La Prairie, MB

Type: Full-time

Jonair (1988) Ltd. is a large independent crop inputs company specializing in aerial application and forestry management across Canada. With a diverse product line of crop input products, we serve our customers in Central Manitoba with custom application services with our seven airplanes. We are located eight (8) miles east of Portage La Prairie and are one of the largest single location independent retailers in Manitoba.

Our team is looking for a full-time **New Grad Agronomist** at our Portage La Prairie, MB location. This position will start in May 2022.

Duties and Responsibilities:

- Work with producers to identify their needs specific to agronomy and crop production.
- Provide sound agronomic advice and promotion of products and services.
- Help coordinate the custom application and delivery of products.
- Identify specific grower needs and provide expert advice, products and services for new and existing customers.
- Assist with the management and delivery of prescribed products & solutions.

This position will appeal to people who are highly motivated, enjoy working independently as well as part of an energetic team. The successful candidate should possess the following qualifications:

Job Knowledge and Requirements:

- Degree or Diploma in Agriculture or related discipline.
- Agriculture or Agribusiness background, interest, and aptitude
- Clear communication skills, ability to influence, sell and market services to customers
- Ability to work independently and as part of a team
- Ability to be flexible in work hours throughout the busy season (May-July)
- Valid Class 5 Driver's license with acceptable drivers abstract.

Qualified candidates can submit a cover letter and resume in confidence to:

Bryan Dion, Owner – Jonair (1988) Ltd. bryan@jonair.com

We thank all those who apply; only those selected for further consideration will be contacted.
