

# Heavy Duty Mechanic

---

We are in need of a permanent full-time Heavy Duty Mechanic or Technician who will be required to perform skilled tasks in the mechanical repair and maintenance of heavy trucks and heavy equipment in a scrap metal yard. You will be required to maintain all equipment to the required standards and be responsive to production needs and equipment failures.

The ideal candidate must be a team player with strong attention to detail. You should also be able to make decisions, troubleshoot, and perform repairs with little to no supervision. You will be working indoors and outdoors in all weather conditions and frequently on elevated spaces.

## **KEY RESPONSIBILITIES:**

- Diagnose defects in heavy-duty equipment or trucks
- Perform mechanical repairs on equipment in the shop and yard when required
- Inspecting and examining machinery and equipment to detect irregularities and malfunctions
- Identify and correct any problems found in machines, equipment, or processes in order to facilitate operations
- Adjusting machinery and repairing or replacing defective parts
- Test repaired equipment for proper performance
- Clean, lubricate and perform other maintenance work
- Ensuring operating safety devices function properly on completion of repairs, modifications, and installations
- Assemble all machinery and equipment by bolting, welding, riveting, or fastening them to pre-built foundations
- Adhere to assembly and installation instructions set forth in vendor manuals and specifications
- Adhere to workplace safety policies, regulations, and compliances
- Communicate any unsafe conditions or accidents/injuries in a timely manner to the supervisor in order to facilitate prompt correction or reporting
- Keep detailed and accurate maintenance reports and documentation
- Maintain a working knowledge of changes in technology and repair techniques
- Other mechanical repair work as required or instructed by supervisor

## **QUALIFICATIONS & SKILLS REQUIRED:**

- Completion of college/CEGEP/vocational or technical training or an equivalent heavy equipment mechanic work of at least 2 years
- **We are willing to support and train mechanically inclined candidates**
- In-depth knowledge of industrial/construction equipment and machinery
- Working knowledge of safety standards of equipment
- Demonstrated aptitude in reading and interpreting blueprints, diagrams, schematics, drawings

- Demonstrated good oral and written English communication and reading abilities
- Manual dexterity is required to use power and hand tools
- Must be able to lift and carry up more than 50 lbs
- Strong attention to detail and demonstrated analytical ability
- Able to work professionally, respectfully with a positive attitude and a high level of personal integrity at all times
- Strong work ethic and ability to complete work in a timely manner
- Must be able to work with little supervision; must be self-directed
- Ability to work both independently and as part of a team
- Able to deal with people sensitively, tactfully, diplomatically, and professionally at all times
- Computer literate

### **Work Conditions & Additional Information:**

- **Work location:** 550 Messier St., Winnipeg, MB R2J 0G5
- **Working hours:** MON to FRI, 8:00 am – 4:30 pm, some overtime & weekend when the need arises
- Will be required to work outdoors in all weather conditions and on elevated spaces
- Physical ability to lift up to more than 50lbs (with mechanical aid/support from co-workers)
- **Own tools/equipment required:** Steel-toed safety boots
- Salary will be commensurate to the experience of the selected candidate
- We will provide training for the right candidate

We welcome applications from all interested individuals; however, only those candidates selected for an interview will be contacted.

Our company follows MB Public Health advisory and restrictions which we apply to the workplace as well as the recruitment process.
