

IDC Communications (on behalf of Bell MTS) is currently looking for energetic customer service-oriented Telecommunications (Copper/Fiber) Field Service Technicians (contract basis). Contractors must supply own tools, and a reliable work vehicle (white) that can support a 28 ft. fiberglass ladder.

**Potential earnings for this opportunity are between \$50,000 and \$130,000/per year.**

Selected applicants will install, diagnose, maintain fiber, and copper networks (Internet, Phone, TV) and associated components, as well as be customer-focused, responsible, results orientated and providing a positive customer experience every time. IDC Communications requires Contractors to work evenings, weekends, and statutory holidays.

**Preferred Qualifications:**

- Experience with Installation, repairs and maintaining Fiber and Copper Networks.
- Experience with troubleshooting Copper and Fiber Networks
- Experience with installing data and voice cabling (Cat5e & Cat 6)
- Experience with installing copper and fiber aerial drops from pole and attaching them to the house.
- Ability to distinguish colors.
- Ability to climb ladders at least 28' high.
- **Own reliable vehicle (must be white in color and less than 10 years old).**
- Proof of contractor insurance
- Crimp and terminate Cat5e RJ45 connector
- Strong command of the English language – both spoken & written
- Neat appearance and good customer service skills
- Ability to work independently
- Ability to accommodate a variety of assignments at various locations
- Maintain a valid Manitoba driver's license
- Physically fit, including the ability to lift heavy objects, tools and climb a ladder
- Must be able to pass a criminal background check (Triton)

**Desired Skills:**

- Good understanding of Computers
- Must have a mobile phone for work purposes
- Installing, troubleshooting, and servicing home internet systems/products in customer's home
- Contractors will interact with consumers daily and should be comfortable and able to effectively communicate/train customers
- The following training will be provided: Fall Protection, ladder safety & WHIMS certification.

**Responsibilities:**

- Comfortable using handheld tools and working at heights
- Maintaining stock of all parts, supplies, and equipment
- You will be exposed to a variety of weather elements including heat, cold, wind, and rain
- Installation, termination, & testing of Cat5e cable
- Follow safe drilling practices
- Willing to work flexible schedules including daytime, evenings, and weekends
- Follow safe work practices
- Willing to travel
- Willing to finish online training at your own time

**Tools & Safety Gear:**

- Safety Footwear
- Safety Vest
- Hard Hat & Safety Glasses
- All necessary tools of the trade
- EXFO copper/fiber test meter will be provided.

If you enjoy working with the public and have a strong desire for personal and financial growth, apply today!
