

Software Developer

Location: Brandon, MB • **Status:** Full-time

Wage: \$22 - \$25/hr (based on experience)

ABOUT THE ROLE

As a **Software Developer**, you will work closely with a highly skilled and engaged development team to advance business management platforms as well as customized Computer-Aided Design (CAD) solutions.

RESPONSIBILITIES

- Participate in requirements discovery (needs assessment) and feature design.
- Implement new features, bug fixes, optimizations, and improvements throughout the entire tech stack.
- Enforce convention, design, and development standards, bring new ideas and share knowledge.
- Write code for Rest APIs, a multitude of different apps using different technologies such as .NET 6.0 (ASP.net, MVC, Blazor, C#), Python, Kotlin and AL (MS Business Central).
- Maintain and engage the culture of the company and the department.

REQUIREMENTS

- General knowledge of software development concepts, a good knowledge of C++, Java, C# or other object-oriented and type complete language.
- Knowledge of best practices, strategies, and methodologies for software development.
- Understanding of business requirements and the ability to translate these into functional and efficient software solutions.
- Experience developing web-based applications with ASP.NET and databases with SQL-based databases (PostgreSQL preferred).
- Positive attitude and willingness to collaborate in a team environment.
- Bachelor's degree in computer science, engineering, or related field.

GET TO KNOW GREENSTONE

Greenstone Building Products is a locally owned and operated green building technology company that manufactures the ICE Panel – a structural composite panel for residential, commercial, and industrial building applications.

Our mission is to provide builders and developers an energy efficient building envelope that will save time and money from construction to completion, and for a lifetime after.
