NATURAL GAS MAINTENANCE PERSON TRAINEE

Brandon, MB

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Great Benefits

- Competitive salary and benefits package.
- Defined-benefit pension plan.
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community.

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

We are seeking qualified individuals to train for a career as a Gas Maintenance Person. Under the direction of a Gas Supervisor or delegate, you will participate in a four-year apprenticeship program that includes on-the-job training and 12 weeks of competency-based classroom training leading to Journeyperson status. Maintenance Persons assist in the installation, construction, repair and abandonment of gas pipelines and related facilities in the gas distribution system as well as responding to Natural Gas related emergencies.

Responsibilities:

- As part of your training, you will be required to successfully complete the Apprenticeship Manitoba Utility Gas Fitter's Licence exam
- Maintenance Persons need to continuously upgrade their skills and knowledge to keep pace with the ongoing development of recent technology in the Natural Gas industry
- Repair and make alterations to the Natural Gas distribution system including above and below grade piping and equipment
- Replace Natural Gas meters and regulators and repair or install service lines
- Respond to Natural Gas related emergencies such as damaged gas lines or below grade gas odor calls.
- Operate hand, power and hydraulic tools, instruments, squeezing equipment, power excavation equipment (e.g., backhoe, trenchers, etc.) and pipeline tapping & stopping equipment
- Be prepared to work outside of headquarter zone periodically

Qualifications:

- High school graduate
- Possess a valid Class 5 Manitoba Driver's Licence and be eligible to upgrade to Class 3 with an air endorsement
- Meet the challenges of physically demanding work in all types of weather
- Capable of working at heights on ladders, scaffolding, catwalks, roof tops and mechanical lifts
- Be prepared to work with higher pressure natural gas and mechanical systems while adhering to established safety procedures
- Be prepared to work in confined spaces with hazardous products while conforming to established safety procedures
- Be prepared to interact with customers as required
- A certificate in a registered trade (e.g., Plumbing, Refrigeration) would be an asset

All applications must include the following information, attached to your online profile:

- A current resume and cover letter
- High school and any post-secondary school transcripts or training certificates

The selection process includes aptitude testing, a panel interview, and a one-day Manitoba Hydro sponsored Skills Assessment and Trades Orientation program. Candidates selected for an interview must provide a current driver's abstract at the time of their interview.

The email address you submit in your application profile will be used as the main form of correspondence throughout the recruitment process. Please monitor your email inbox on a regular basis.

During your training, you may be required to work at various locations throughout the province.

Salary Range

Starting salary will be commensurate with qualifications and experience. The range for the classification is \$18.11-\$29.19 Hourly, \$34,701.16-\$55,928.60 Annually.
