## Network Operation Center and Tower Support Technician

RFNOW Inc. is seeking applications from motivated individuals interested in joining our growing *Technical Services Team*. RFNow is growing its IT team and expanding the serviced areas and client base. To enable this growth, RFNow is looking for people with a desire to learn and work in our service area of Southwestern Manitoba and Southeastern Saskatchewan as a **NOC/Tower Support Technician**. Under the guidance of the Facilities Manager, Network Architects, and other teams, you will be responsible for all devices that support RFNow's growing services: ISP, VOIP, and new services.

This is an excellent opportunity for someone looking to establish themselves in the industry. You will be given the guidance and support to develop experience in a real-world environment and will have plenty of opportunities to continue to grow in this or other roles within the organization.

### General Responsibilities:

- Building, configuring, and maintaining the IT infrastructure withing the NOC's and towers.
- Working remote and on site in the NOC's and Towers.
- Travel through Western Manitoba and Eastern Saskatchewan is required at times.
- Equipment includes Racks, UPS's, networking devices, servers, and storage.
- Applications include VMware, Windows, backup services, and a variety of applications to support services to staff and customers.
- Level 2 On-call to support the NOC's and Towers IT services.

### Qualifications & Experience:

- Computer Science, Network Administration or Communications Engineering Technology, or other IT course/programs.
- Cisco networking training and certification is an asset.
- Windows Server experience and training is an asset.
- A desire to learn and part of a growing team.

Reach out to us at [Careers@rfnow.net](mailto:Careers@rfnow.net) if you have any questions, or are interested in submitting your resume for consideration for this or any other of our exciting opportunities.
