

Now Hiring !!

The Inter-Mountain Watershed District (IMWD) is currently accepting applications for the position of

Resource Technician; Prairie Watershed Climate Program

With offices in both Ethelbert and Ste.Rose, MB, the Resource Technician will work throughout the District to promote and implement the Prairie Watershed Climate Program (PWCP). This is a one-year term position, with an extension possible.

Duties:

- Office and field responsibilities related to our local PWCP program related to Nitrogen Management, Rotational Grazing, and Cover Crops.
- Meet with landowners to discuss, design, and implement potential projects.
- Responsible for outreach, and promotion of the program.
- Nitrogen Management; responsible for Crop & equipment inspections, invoice verification, and gathering data.
- Cover Crops; responsible for cover crop inspections, pictures, and invoice verification.
- Rotational Grazing; responsible for fencing/watering system inspections, invoice verification, and legume crop inspections.

Essential:

- Strong communication skills
- Possess a post-secondary diploma or degree in a job-related field
- Valid class 5 drivers license
- Experience in the agriculture or conservation sector is considered an asset, as is experience with GPS and GIS.

Salary is commensurate with experience. Applications accepted until position filled. We thank all who apply, but only those selected for an interview will be contacted. Interested applicants can submit resume and references to:
